South African Bee Industry Organization

Beecon 2016

01 & 02 July 2016

Surval, Oudtshoorn

Beekeeping in Support of Agriculture

Proudly hosted by WCBA

MEDIA RELEASE 2

15 June 2016

The annual conference of the South African Honey Bee Industry takes place in Oudtshoorn from 1 to 2 July 2016 at the beautiful Surval Boutique Olive Estate.

It is hosted by the Western Cape Bee Industry Association on behalf of SABIO --- the national bee organization.

Various leaders in South African Agriculture, Government and Research Institutes, as well as from overseas, have been lined up to address the conference on key issues at this time, i.e. challenges facing agriculture, safety of agricultural chemicals in the food chain, pollination of vital crops and the general well-being of our honeybee population.

The attached program promises to be very stimulating and interactive. There will be training for beginner and developmental beekeepers on Thursday 30 June 2016. The conference itself will be on the Friday and Saturday.

This is your chance to make new friends and contacts and meet with old friends and industry representatives. It is an opportunity to listen to great speakers, share ideas and discuss concerns facing beekeepers and beekeeping in South Africa.

We have only 2 weeks to go, but will leave the registration door open until [23 June 2016](#).

Visit www.wkbv.co.za and click on "Beecon 2016" for the program, registration forms and contact details or see below for more information.
